

I listen to AirlRadio at 90.1 FM. I spend most of the day in my car and listen all day.

It is such a blessing to have music to listen to that is uplifting and with no commercials.

I am a financial supporter of the station. I have 2 children that can listen all day and I don't have to worry about what they are listening to. A lot of the church going people in our community listen and we would all be affected if you replaced it with an LPFM station. The service Air 1 provides is of public interest because it provides a place where the people who are looking for music that means something can go, where you can call if you need prayer or someone to talk to, where you can learn more about the Gospel and simply be edified by listening. Please do not take that away from my family or the community.

Sincerely,

Karen Ayres
